

Science Teacher (m|f|d)

From August 2024, we are looking for a qualified and committed English-speaking Science teacher with a strength in Biology for our bilingual Secondary School. Knowledge of the IGCSE Combined Sciences syllabus and the IB DP Biology curriculum would be a distinct advantage.

You have

- a teaching qualification for Science at Secondary School level
- substantial teaching experience in Grades 5 to 12
- the ability to teach Biology at Higher Level to talented students in Grades 11 and 12
- experience with linguistically heterogeneous learning groups
- English language skills at native-speaker level
- good knowledge of German or a willingness to learn the language
- strong IT skills for effective use of our modern learning environment
- personal qualities that motivate and inspire the students
- open-mindedness, flexibility and the ability to work well in a team
- a high level of commitment

Your area of responsibility

- Teaching the three sciences (Biology, Chemistry, Physics) in a combined syllabus to students in Grades 5-10
- Teaching Biology (and another Science, if desired) in the IB Diploma Programme at Standard and Higher Level.
- Focusing on student learning and development, extending and supporting as required in order to help students to reach their potential
- Working closely with other members of the Science department and other teaching staff
- Communicating with parents and guardians

We offer

- significant opportunities to help shape the school's future
- a well-qualified, friendly and helpful international teaching team
- welcoming and open-minded German and international students who are keen to learn
- a family feel and strong bonds within the school community
- modern school facilities with digital technology
- an excellent location close to Frankfurt
- professional development
- a competitive salary + additional benefits such as RMV jobticket, subsidised school lunches and contribution to gym membership
