

For an **international school in Leipzig** we are looking for a

Secondary Teacher for Computer Science and ICT (m/f/d)

Reference No. 206DB

Your employer is an independent non-profit day school for students from Nursery to Grade 12. It provides a high-quality international education, conducted predominantly in English, to children of all backgrounds. Over 220 staff members from all over the world work together to create a stimulating and exciting learning environment for the 950 students whose families come from over 70 countries. The Primary School follows the International Primary Curriculum, and the Secondary School the Cambridge Secondary 1 and IGCSE Programme. The gateway to higher education is the International Baccalaureate (IB) Diploma Programme.

Your responsibilities: You will provide an excellent educational programme by creating a safe and stimulation learning environment in which the students can discover and develop their intellectual, physical, social and creative potential. You ensure a high-quality education in Secondary School, embracing diversity as an essential part of the learning environment while ensuring equal opportunities. You will contribute to the work of the Science department and the Secondary School as a whole. You are a part of the Secondary School initiative to develop teaching and learning in all subjects and classrooms.

The offer:

- an initially time limited full-time or part-time contract, initially fixed-term for 2 years followed by the option of a subsequent employment contract with an infinite duration
- Wonderful students who are interested in learning
- A cooperative international team who is student and learner centred
- Ongoing internal and external professional development
- A dynamic and diverse workplace that continues to develop best teaching and learning practices
- Company benefits such as company pension scheme, supplementary health insurance, moving allowance, JobRad Leasing, financial support for a German language course etc.

Your qualifications:

- A University degree in Computer science, information technology or comparable education
- Valid Teaching License
- fluent in written and spoken English
- Proven ability as an excellent teacher
- Experience with an international curricula is preferred
- Committed to developing a clear and challenging holistic educational programme for the students

Have we piqued your interest?

Then we look forward to your informative documents, which we will of course treat with absolute confidentiality. Please send your application stating the reference number (206DB) exclusively to LehrCare, preferably by email (info@lehrcare.de) and pdf file. For further information, Celina Morell will be happy to be at your disposal.
